Disney INTERACTIVE

7th LEVEL

## TO INSTALL TIMON & PUMBAA'S JUNGLE GAMES

1. Start Windows® if it is not already running.

2. From the Program Manager, select FILE on the menu bar and then choose RUN.

3. In the Command Line box that appears, type D:\SETUP (if your CD-ROM is not the D drive, enter the appropriate letter) and then click OK.

4. Select the type of installation; CD installation, limited hard disk installation or full hard disk installation.

5. Click QUICK to install the program to the default drive, directory and program group or click CUSTOM to select where you want the program files installed.

6. If you chose CUSTOM, type the drive letter and directory name where you would like to install the program files or click BROWSE and select a drive and directory. Click NEXT when you are finished.

7. Select the group in which you would like the program icons to be added and click OK. *(During installation you will also have the opportunity to test your MIDI settings for sound.* ***Timon & Pumbaa's Jungle Games*** *was orchestrated with full, rich music and sound effects. It is recommended that you test your MIDI settings upon installation to make sure that you are experiencing the full depth of music. If you do not hear all of the music or sounds, please check the Troubleshooting section for instructions on adjusting your MIDI settings).*

Once the program has been installed, you will be given the option of automatically installing a joystick driver. *(If you already have a joystick that works with other Windows 3.x applications or if you are using Windows 95, you do not need to do anything to use the joystick with* ***Timon & Pumbaa's Jungle Games****).*

Click YES to have the TIMON & PUMBAA'S JUNGLE GAMES program install a joystick driver automatically. Once the joystick driver is installed, you need to calibrate and test your joystick. In the Control Panel, double-click the Joystick icon. *(Note: You may need to calibrate your joystick again if you have disconnected it from your computer or if you notice it interfering with the operation of the mouse).*

## GETTING STARTED

*Note: You must install the program before running it for the first time.*

If you are running Windows 95, click START, then PROGRAMS. Next, click DISNEY, then TIMON AND PUMBAA to start the program. (If Autoplay is enabled, simply insert the CD in your CD-ROM drive).

If you are running Windows 3.x, double-click the TIMON & PUMBAA'S JUNGLE GAMES icon in the Disney Interactive program group to start the program. Make sure the TIMON & PUMBAA'S JUNGLE GAMES CD is in your CD-ROM drive.
